SAFARI LUXURY WALK-IN TENT

SOROI AMBOSELI · UNITS 2–7, 10–16

ABOUT THIS ROOM

The camp's core accommodation — 13 identical walk-in tents built on stilts under acacia forest shade, each opening onto its own private terrace overlooking the park below. Inside, a king-size bed sits alongside a single bed, with a writing desk, overhead fan and en-suite bathroom completing a generous, naturally ventilated canvas home designed for the bush. A butler hatch allows for discreet in-tent service, and each tent is serviced every morning while guests are at breakfast, with a second turn-down available on request. The camp runs on 24-hour solar power with backup generator support, so lighting and charging are available throughout the tent day and night. Olkeri (Tent 2) and Enkop (Tent 3) are confirmed to have clear views of Mount Kilimanjaro (Daniel Majanga Kebeya, Manager Soroi Amboseli, 2026-09-06). [Unverified] view orientation for the other 11 tents in this category — confirm with Yasin before making view claims for any other unit in guest-facing copy.

Unit 9 (Boma) is one of the property's two wheelchair-accessible units (kids' side), reached via ramped access from the main path. As with every unit at Soroi Amboseli, tents are serviced each morning and the camp runs on 24-hour solar power with generator backup.
